Professional Summary

Resourceful and solution-oriented Full-Stack Developer with 5+ years of hands-on experience building scalable, high-performance web and mobile applications using JavaScript, React, Node.js, and a touch of Golang and Python. Known for developing user-centric solutions, leading agile teams, and delivering mission-critical software under tight deadlines. Passionate about continuous learning, clean code, and impactful user experiences.

Core Competencies

Frontend:

- React, Next.js, Typescript, Redux, Tailwind-CSS, Material UI, React Native (Expo), Electron.js

Backend:

- Node.js, Express, Go, REST/GraphQL APIs, MongoDB, PostgreSQL, Redis, Web Scraping (Puppeteer)

DevOps & Cloud:

- AWS (Lambda, EC2), GCP, GitHub Actions, Docker, CI/CD Pipelines

Other:

- Agile/Scrum, Embedded Systems (Arduino), TensorFlow (ML), UI/UX Design

Professional Experience

Software Engineer (Full-Stack) | OPEX Consulting

2024 – Present | Location – Remote/Lagos, Nigeria

Tech Stack: MERN (MongoDB, Express.js, React, Node.js), Next.js, Typescript, REST API, AWS, GCP

- Accelerated project delivery by 30% by architecting scalable backend services with Node.js + TypeScript, reducing runtime errors by 40%.
- Led development of a high-traffic enterprise dashboard using React + Next + TypeScript, improving data visualization and user engagement by 25%.
- Engineered a real-time analytics microservice with Express.js & MongoDB, processing 10K+ requests/minute for client financial reports.
- Automated CI/CD pipelines (GitHub Actions), cutting deployment time from 2 hours to under 15 minutes.
- Integrated third-party API (Payment gateways, Auth0) for seamless client workflows, reducing manual processes by 60%.
- Mentored 5 junior engineers in Typescript best practices, improving team code quality and reducing PR review time by 35%.

Achievements:

Recognized as “Top Performer” (2024) for delivering a mission-critical client portal 2 weeks ahead of schedule.

Saved \$5K+ in cloud costs by optimizing MongoDB queries and implementing serverless AWS Lambda functions in co-work with the team lead.

Full-Stack Developer

JOWIS Tech — *Minna, Niger State*

2022 – 2024

Tech startup supporting mobile, web, AR/VR, and IoT solutions across Nigeria.

- Shortened project timeline by 14 months for a major client by managing 3rd-party vendor collaboration, saving \$800+
- Led development of a \$50K embedded/IoT research project — recognised as a “gold standard” by client
- Built dynamic web and mobile apps using React, Node.js, and React Native
- Developed web scraper to automate data processing for 100K+ product entries (Node.js + MongoDB)
- Engineered backend with Express.js, integrated REST APIs, and optimised performance

Frontend Developer (Intern)

National Information Technology Development Agency (NITDA) — *Abuja, Nigeria*

2021 – 2022

The government agency responsible for IT policy development and implementation in Nigeria.

- Joined an agile team of 7 developers as a frontend intern
- Developed and maintained over 15 web interfaces using HTML, CSS, JavaScript, and React
- Implemented daily backup automation and server space cleanup via Node.js scripts
- Contributed to a multi-feature product that helped increase team efficiency and agency performance by 0.5%

Graphic Designer (Still & Motion)

Legacy.EA — *Minna, Nigeria*

2017 – 2020

Technology and graphics consulting firm.

- Led and trained a creative team of 4 junior designers
- Produced high-quality visuals using Adobe Suite and Blender
- Delivered 3D animations, promotional videos, flyers, and branding assets for clients

Education

B.Tech, Telecommunication Engineering

Federal University of Technology, Minna

2017 – 2024 | Niger State, Nigeria

Projects

Church Blog Platform

[GitHub](#)

- Developed a blog and church management app using Node.js and Python
- Integrated OpenFlow-based firewall and dynamic rule configuration GUI
- Managed rule-based evaluation at OSI Layer 7 using POX controller

Certifications & Training

- *Leadership Development*, MindShift Summit
- *Effective Communication*, Youth SkillUp Program
- *Agile Fundamentals*, Internal Team Training

Strengths

- ✓ Analytical Problem-Solving
- ✓ Self-Learning & Growth Mindset
- ✓ Technical Mentorship
- ✓ Cross-Functional Collaboration
